

COMPANY PROFILE

Committed to Excellence
and Growth.

Company Overview

Company Background

TrackIn is a leading provider of advanced GPS tracking and fleet management solutions. We empower businesses and individuals with real-time location intelligence, smart asset tracking, and comprehensive telematics data. Our cutting-edge technology helps clients optimize routes, enhance driver safety, reduce operational costs, and secure valuable assets. Driven by innovation and reliability, TrackIn delivers scalable tracking solutions tailored to logistics, construction, public transport, and personal security.

Products & Services

01

AMAN AVL

Aman" is a comprehensive and reliable GPS tracking solution designed to give you total control over your vehicles. It provides real-time tracking and deep insights, including live location, vehicle speed, fuel consumption, driver behavior, and instant anti-theft alerts. With "Aman," your vehicles are always visible, secure, and fully optimized.

Products & Services

02

RAQB DashCam

RAQB" is an intelligent, real-time DashCam surveillance solution designed for ultimate vehicle and fleet security. Acting as an unblinking eye, it simultaneously monitors the road and the driver's behavior inside the cabin. RAQB analyzes driver actions—detecting fatigue or distraction—while documenting road events in high-definition, ensuring complete safety, accountability, and peace of mind.

Products & Services

03

BARQ PWAS

BARQ is an advanced Proximity Warning Alert System (PWAS) designed for heavy machinery and industrial equipment to prevent worksite accidents. Powered by Artificial Intelligence (AI), the system acts as an early warning shield by continuously scanning the equipment's surroundings and calculating safe distances in real time. KASHEF detects pedestrians, workers, and nearby vehicles, issuing instant audio-visual alerts to both the operator and personnel in the danger zone.

Branches

Our Presence & Geographical Coverage headquartered in Dammam, TrackIn closely serves clients across the Kingdom through our strategic branches in Riyadh and Jeddah. Backed by a wide network of field technicians, we provide comprehensive installation and maintenance services covering every city and region across Saudi Arabia.

OPERATION

Operating Hours & Fast Deployment

24/7 Availability: We operate around the clock, 365 days a year—including weekends and official holidays—to ensure your fleet and machinery never stop moving safely.

Installation within Major Cities (Dammam, Riyadh, Jeddah): We guarantee professional installation and deployment within 24 hours of your request.

Installation Outside Major Cities: No matter how remote your location is, our team will reach you and complete the installation within 48 hours.
